intelligent development training

## **Climate Change & Forest School**

**3<sup>rd</sup> April 2020 10-3pm £40**

**Want to be greener in your Forest School and setting?**

**Want to convince your school, parents, community to be greener?**

**Want to save money and feel less anxious about climate change?**

- ❖ Following this course, you will know how to:
- ❖ Make changes to your Forest School or setting that will save thousands.
- ❖ Pursue incentives, awards and recognition for your school while reducing energy emissions.
- ❖ 'Rewild' your site with lesson plans, resulting in increased biodiversity.
- ❖ 'Green' your business. Simple practical things to do to cut costs and be greener. Measure your impact at the start and end of the session.
- ❖ Engage in new outside activities that will result in 'big ripple' changes to your participants' eco impact.
- ❖ Action plan and set goals to ensure that you can control changes at a steady rate and feel less anxious.
- ❖ Reduce Climate Change anxiety by learning mindfulness, taking earth walks and engaging in activities linked to NHS Wellbeing and the curriculum.
- ❖ Make effective use of the Green Policies Handbook Template
- ❖ Link eco activities to STEM challenges and the curriculum.

**Professional Development Activity Pays Dividends.**
